

Example 1

```
for co in range(CO):      # out_channels
  for oh in range(OH):    # out_height
    for ci in range(CI):  # in_channels
      for ow in range(OW): # out_width
        for kh in range(KH): # kernel_height
          for kw in range(KW):
            O[co][oh][ow] +=
              I[ci][oh+kh][ow+kw] *
              W[co][ci][kh][kw]
```
